

Research resources

Information can come from different sources and the type of information you need will change depending on the assignment you are working on. The SCU library staff are always happy to answer any questions you may have about finding information for your assignments.

Books and ebooks

The Library catalogue shows all the books and ebooks in the library collections.

Audio and visual resources

Find what you need by searching for CDs, DVDs and streaming media through the Library catalogue.

Journals and newspapers

You might need to find a number of articles to answer your assignment, and you don't know what journal they might come from. Start your search in a database.

Databases

SCU subscribes to many online databases to support learning and research. These can be searched to find articles from journals, newspapers or other information sources.

LibGuides

LibGuides list key resources and information by subject. LibGuides are useful to get you started when researching topics. You will find LibGuides tailored for your course.

Your librarian

Your librarian can help to find the resources you need to succeed. Librarians are available for appointments.
